

YOU ARE EVERYTHING TO ME

Every time I see you walking by
I kiss the ground and thank the sky
Never has something so good happened to me

You are, you are, you are the sun
You are, you are, you are the moon
You are, you are, everything to me

You are, you are, you are the sky
You are, you are, you are the stars
You are, you are, the world to me

When I think about how my life has changed because of you
How all my troubles up and moved to Kalamazoo
I want to shout from the highest mountain, that's what I'll do

You are, you are, you are the sun
You are, you are, you are the moon
You are, you are, everything to me

You are, you are, you are the sky
You are, you are, you are the star
You are, you are, the world to me
