

Faith, Hope and Charity

Well I'm talking 'bout faith, hope and charity
That's what this little world needs
A little faith, hope and charity

I read the papers everyday
The news is sad I'm here to say
Have we really crawled out from the cave

Well I'm talking about faith, hope & charity
That's what this world needs
A little faith, hope & harmony

Trapped in maze of dead end streets
She's only seventeen, but feels beat
Gotta help her stand up on her feet

Faith, hope and charity
That's what this little girl need
A little faith, hope and prosperity
Faith, hope and charity
That's what this little world needs
A little faith, hope & charity
Charity
Charity
Charity
Charity

Everybody needs rainbows
Everybody needs love
Ring the bell in the tower
Reach out
And touch someone
Reach out

Well I'm talking 'bout faith, hope and charity
That's what this little world needs
A little faith, hope & charity
