

Bed For Two

I know you don't need me around
There's plenty of catfish in this town
That race their Mercedes on Mulholland Drive
Captains of Industry can eat me alive
Alive

Can't give you money, can't buy you fame
I drive an old Chevy that leaks when it rains
But I've got the mojo and the hip hop down
Just give me a chance to drive you around
Around, drive you around

I'm your man if you need someone to hold on to
I'm your man with the big plans and a bed for two

I've got the place where we can go
Kinda like heaven but without snow
I'll make you scream, call out my name
You'll think I'm Casanova with love in my veins
In my veins, love in my veins

I'm your man if you need someone to hold on to
I'm your man with the big plans and a bed for two
